PMS cloud

100% cloud

Having all your data in the cloud allows you easy access from anywhere, avoiding any computing issues.

100% connected

Receive and manage real-time direct bookings from your booking engine or from OTAs (Booking, Expedia...).

100% Integrated

You can integrate it with your booking engine, your channel manager and accounting application.

Cloud advantages

-  **Server savings** (hardware, technical support, energy).
-  **Funding is not required** as we offer you a rental model with reduced monthly fees.
-  **No investment is required** for backup systems.
-  **Saves Payroll costs** thanks to automated repetitive tasks, also improves efficiency.
-  Workplace and leadership **flexibility**.
-  **Increased sales** and profit margin by means of integration with Channel Managers Cloud.
-  Users have **access** to the PMS software from anywhere and from multiple devices.
-  Reduction of human errors.
-  **New sales channel** for upselling and offers.
-  **Improved** guest **experience and engagement**.
-  **Improvement of the quality process** as customer's brand perception is improved.
-  **More efficient staff** due to increased mobility..

... **Your competitors are already moving to the cloud. Don't fall behind!**

Main features

Simplicity

With **Bookelier** you don't need to pay for expensive courses to learn how to use it. Its design is **clear and intuitive**. However, we can provide you and your employees with training.

Flexibility

Bookelier **adapts to your way of working** and easily handles direct or channel bookings, manages payments, additional costs, seasonal fees...

Freedom

With Bookelier you don't need to be in your office. **Manage your business from anywhere** with an Internet connection. All you need is a browser.

Security

Bookelier is protected by **HTTPS security protocols**, and by restricted site access. No one but you and your employees will have access to the data.

Convenience

Do not worry about backups, local network and servers. You only have manage your business, we take care of everything else.

Support

We are on hand for any questions or problems you may have. **We will answer you.** Contact us at **info@bookelier.com** or at **+34 934 581 789**.

Reasons to choose Bookelier

Accessibility and Flexibility.

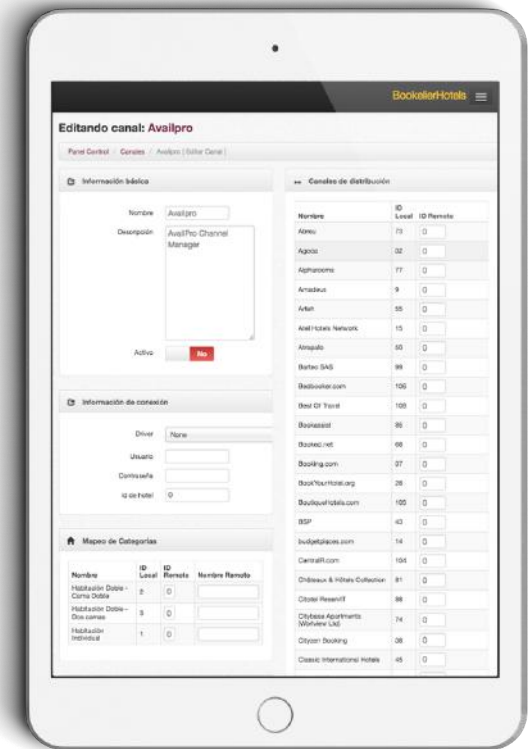

Bookelier brings you the flexibility required to get access to your hotel PMS wherever your working day leads you and that's extremely important.

Time saving.

Saving time will help your customers. Bookelier allows administrators to eliminate hands-on activities that take up too much time, such as organizing paper files and checking multiple systems..

Cost reduction.

Bookelier contributes to reducing operational expenditure since the use of a single tool means costs can be eliminated and allows the booking engine to improve in order to avoid excessive commissions.

Save time and money when managing your Hotel with Bookelier

Bookings management

Calendar management

Check at a glance all the **calendar charts** of the inventory, the **check ins and check outs, blockings** and booking details. All in a **clear and intuitive way**.

Booking management

Consult your reservations and the calendar, customers, price, balance, channel used, booking codes and print all **check in documents, the travelers documents, invoices** and manage **email communication** with customers or **direct bookings**.

Channel quotas

Manage **quota availabilities by room type and channel**, giving priority to the channel or direct bookings.

Contact management

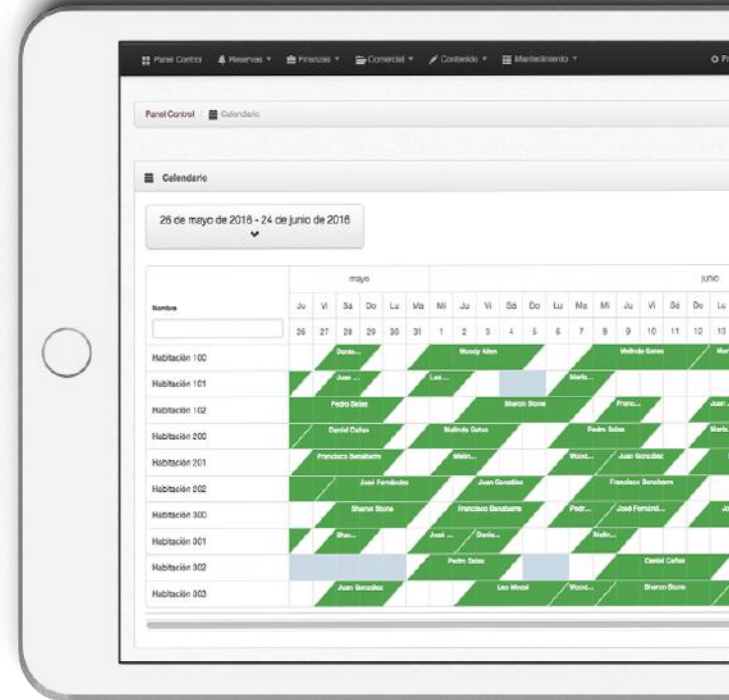

Save the **contact information of your customers**, which will be created automatically when entering reservations and encourage loyalty from them.

Check-ins y Check-outs

Help your Receptionist with the simple Check-in/out screen, which **records check-ins and check-outs** with no mistakes.

Reservations falling from the cloud

Your reservations from any channel, **will be entered directly into Bookelier**.

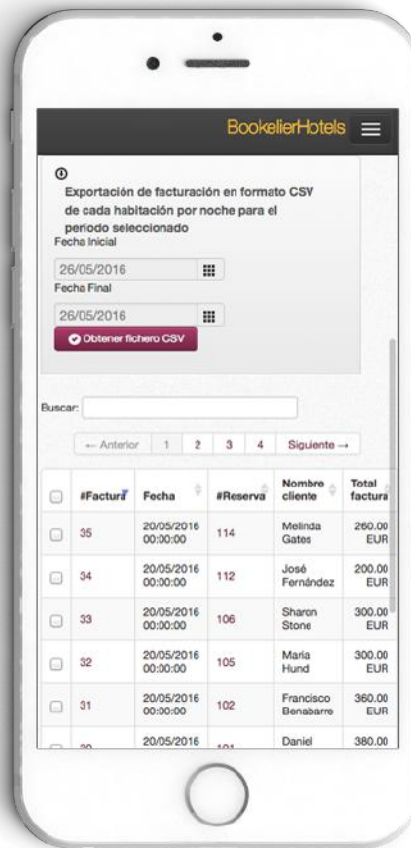

Financial Management

Invoices

It generates and prints invoices for your clients, including any **extra** type of **services** like breakfast, parking or mini bar. It adds incomes and expenses to the hotel inventory.

Accounting integration

Converts your invoicing data to a **standard Excel format** for accounting purposes.

Rates

Manages and customizes **rate types** and **seasonal rates** according to your needs and adjusts prices for the biggest occupancy rate.

Cash closings

The daily cash closing option with closing cash balance and POS will allow you to **tally your accounts**.

Reports

Stop worrying about Police reports. Bookelier generates reports for the relevant **Police** department, as well as sending information to the **government statistics department**.

Online Bookings

Booking engine

Bookelier is compatible with your booking engine and can integrate with it. However, it is possible for you to just use ours. One way or another, your direct Web bookings will directly form part of the PMS.

Channel managers

Bookelier integrates with the main channel managers to synchronize calendars, rates, availabilities and all **the information will be centralized in Bookelier.**

Statistics

Monitors every aspect of the business by means of a **complete control panel system**. Set your business apart from the competition and manage it all at a glance.

Occupancy rate

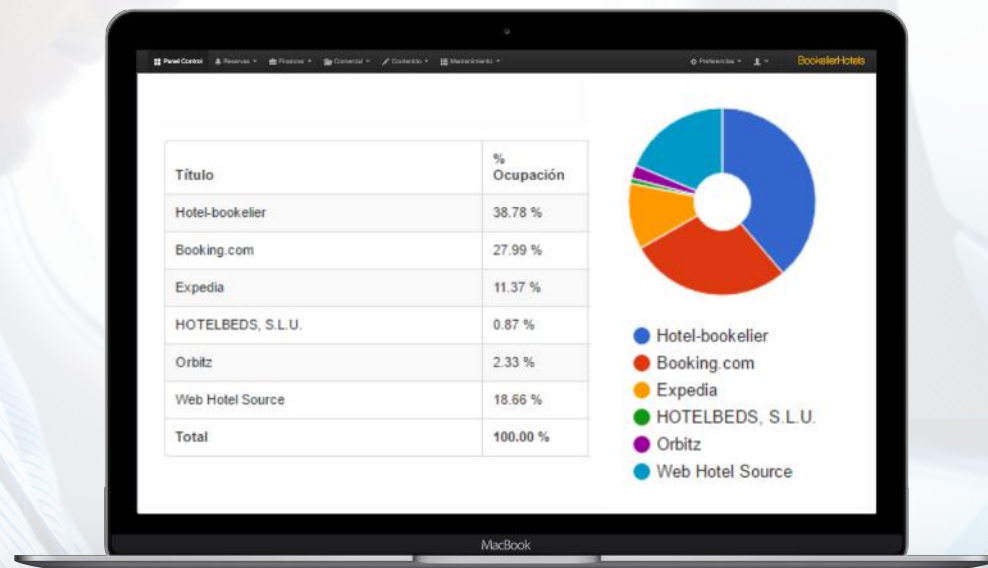

Displays occupancy rates by day, gender, age, number people, stay duration, room types and more in easy to understand graphs.

Finances

Amongst other features it can generate report graphs by room, extras, payment method (Booking, Expedia, direct bookings, etc.) and by services.

Marketing

View the **RevPAR, ADR, Pickup** and you will know how your business is performing and how much your Yield Management can be improved.

Rapid check in

In order to avoid wait times and errors during check ins, Bookelier makes use of a **Delta ID card and passport scanner**.

In less than 3 seconds, the system types guest's data into Bookelier.

House Keeping

Cleaning interventions

Automatic checkin and checkout cleaning interventions. Bookelier manages schedules and grants flexitime work arrangement for employees.

Incident management

Prevents predicted incidents from happening in rooms and apartments.

Maintenance

Creates and carries out management tasks from start to finish.

Our customers reviews

"In order to manage our 15 rooms inventory we need an easy PMS to use, with a reasonable price, and preferably cloud-based, to not make things complicated with computing.

Also, it is vital to connect the PMS with our channel manager AvailPro. Like this, and in a totally automatic way, our booking engine inventory, the one from booking.com or expedia can be loaded.

Bookelier is offering all this, and it operates to our complete satisfaction.

Technical support is fast and efficient..

Bookelier may not be as powerful as the big PMS, but

If you want to manage a minor hotel, it's the best option and very simple to learn.

Christian Schaack
Hotel Mas de la Costa
Valderrobres (Teruel)

www.masdelacosta.com

"We are very happy to work with Bookelier, we believe that its strength lies in its simple and fast customer service!"

Oscar Valls
The Bird House
Barcelona
www.birdhouse.es

Tomas Coloma
Hotel Misiana
Tarifa
www.misiana.com

"Probably the best change we have made. Bookelier has everything you need, and most importantly, it doesn't lack a single function designed by the big channels. This is a perfect tool for businesses like ours where personal treatment comes first and where the customer is not only a number.

Connectivity with the channel manager is perfect too. Simple to use, intuitive, can support a lot of information and does not slow down... What else can be said?. Ah yes!. Post-sales service and after sales service is excellent, ¡five bubble rating on TripAdvisor!"

Change is very simple to make

Transferring your booking management to **Bookelier** is easier than it seems, we take on customers and bookings.

If you are already using a channel manager

If you have all your bookings and prices available in the channel manager, we can synchronize it and load all the data automatically.

If you have another PMS

If you own another PMS, you just need to send us your PMS data in an **Excel file** and we will load it on Bookelier or, depending on your type of PMS, we will extract the data ourselves.

If you are not using a PMS

You just have to send us your customer information in an excel file and we will load it all on the PMS. **That's it! You don't have to do anything else.**

Prices and services

Setup

Upon signing up to Bookelier we will configure your PMS to your needs with your bookings, rates, rooms and availability. We will connect you to your preferred OTA or channel manager and provide any necessary training. All **from 250€** (a one-off payment)

Monthly fee

The monthly use fee, which includes customer support and backups start **from 50€/per month**.

Prices personalized for you

If you need **extra services or a personalized budget** please contact us at info@bookelier.com.
